SUMMARY

Data Science undergraduate with a strong interest in full-stack development, artificial intelligence, and machine learning. Experienced in building practical web and AI-based projects, with a focus on developing real-world solutions and continuously exploring new technologies.

EDUCATION

Anjuman Institute of Technology and Management
Bachelor of Engineering in Data Science

2023 – 2027
Bhatkal, Karnataka

PROJECTS

I-HEART | *Python, Machine Learning, Data Science, Web Development*

- Developed an AI-based health risk prediction system focused on diabetes and cardiovascular disease risk assessment.
- Built an integrated application combining machine learning components, health datasets, backend services, and a web-based frontend.
- Organized the project with dedicated modules for datasets, machine learning models, frontend, backend, testing, and documentation.

Fixit | *React, TypeScript, Vite, CSS*

- Developed a smart campus issue management platform designed to help users report and track college facility issues.
- Built a modular and responsive frontend using React and TypeScript with reusable components and feature-based organization.
- Implemented a structured frontend architecture with service utilities, custom hooks, TypeScript types, and responsive UI components.

LORE | *Python, Flask, NLP, Scikit-learn*

- Developed an NLP-based story recommendation and retrieval system for discovering relevant stories from a collection of 520+ stories.
- Implemented TF-IDF vectorization and cosine similarity to match natural-language user queries with relevant story content.
- Combined content similarity with metadata-based ranking and added explainable “Why this story?” recommendations.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, SQL, HTML, CSS

Frontend: React, Vite, Responsive Web Design

Backend: Flask, REST APIs

AI/ML: Machine Learning, Natural Language Processing, Pandas, NumPy, Scikit-learn

Databases: MySQL, MongoDB

Tools: Git, GitHub, VS Code

LEADERSHIP / ACTIVITIES

NOVA Forum

Additional General Secretary

Anjuman Institute of Technology and Management

- Contribute to the coordination and organization of forum activities and college initiatives.

ArenaX – STEM’25

Organizer

Anjuman Institute of Technology and Management

- Contributed to organizing and coordinating ArenaX as part of STEM’25.
- Assisted with event activities and participant coordination during the event.
